Our Lady of Mt Carmel Primary
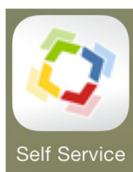

20th March 2014
Dear Parents/Carers,

Over the past week we have learnt a lot of new and interesting things on our iPads. We hope that your child has shown or taught you about some of the things they have learnt.

By now you should have created an Apple ID for your child. When you do this you need to make sure you use a parent's date of birth, as using your child's date of birth will not work. If you are still having issues creating this please contact the school by **Friday 21st March** so any problems can be rectified.

As your children _should not_ know their Apple ID passwords, we are asking for your assistance in downloading apps. As of Week 9 the use of these apps will become important for students to participate fully in the learning activities we have planned, so downloading them to their iPads is essential.

By opening "Self-Service" you should be able to download the following apps for free. This needs to be done by **Monday 24th March.**

- Google Drive
- iMovie
- Inspiration Maps Lite
- Tellagami

We will advise you of any apps that need to be downloaded at a later date.

If you have issues with your home internet connection you are more than welcome to use the wi-fi connection available at school to download the apps. The school wi-fi will automatically connect when you are on school grounds, so you could take a few minutes either before or after school to download these apps. We ask that you go to the either the Office or Year 4 Learning Space if you are going to do this, in order to comply with the rules of not using iPads on the playground.

It is also important that we are aware of your child's Apple ID password in case there are ever any problems that need to be resolved at school. Could you please return the slip below to school in a sealed envelope by **Monday 24th March.**

Thank you for your assistance in this matter.

Mrs Wooding and Miss Lawrence
Year 4 Teachers.
